Our Mission and Vision

Mission

To redefine healthcare standards by providing high-quality, innovative medical equipment and supplies that healthcare providers can rely on. We leverage decades of experience and extensive product knowledge to ensure healthcare professionals receive trustworthy, dependable service in Kuwait and the GCC.

Vision

To set a new benchmark for healthcare excellence in Kuwait. We aim to exceed expectations by delivering cutting-edge medical solutions, fostering strong partnerships, and supporting healthcare providers in making a lasting impact on patient care.

Commitment

Our commitment is to positively impact the healthcare sector by offering top-tier medical solutions that enhance patient care and healthcare outcomes. We prioritize quality, innovation, and integrity, ensuring every product and service we provide supports the well-being of our community.

Our Departments: Expertise Across Healthcare

At Al Massaeed Group Medtech Co., we specialize in three core areas of healthcare innovation:

Laboratory Equipment

Liquid Handling Solutions

Partnering with **AHN Biotech**, we provide high-precision liquid handling systems, including micropipettes, pipette tips, and automated dispensers, designed to improve accuracy and efficiency in laboratories and research settings.

AHN
CAPP ahn MAXLINE

Immunoassays & Rapid Testing

Autobio Diagnostics Co., specializes in the research, development, production, and sale of in-vitro diagnostic products. Their portfolio focuses on immunoassay, microbiology, and biochemistry reagents and instruments for medical laboratories globally.

Autobio

Through VIDIA LTD, we supply ELISA kits, rapid tests, and monotests for infectious diseases, allergy diagnostics, and autoimmune testing, delivering quick and reliable results.

VIDIA

Point of Care Testing (POCT)

Through collaborations with **Biosurfit and Hipro Biotechnology Co.**, we deliver rapid diagnostic solutions for hematology, immunoassays, infectious diseases, and more, ensuring timely and accurate results.

Hipro
biosurfit

Medical and Laboratory Consumables

Our partnership with **HwTai** ensures a steady supply of high-quality consumables, including syringes, gloves, pipette tips, and test tubes, essential for hospitals and research institutions.

HWTai

Hematology & Chemistry Analyzers

With Wiener Lab, we offer advanced hematology and chemistry analyzers, along with high-quality reagent kits, to support accurate blood analysis and diagnostics.

Wiener lab.

Haemostasis & Microbiology Analyzers

Render Biotech Co. Limited provides state-of-the-art analyzers for coagulation studies and microbial identification, ensuring precision in clinical laboratories.

RENDER

Medical Logistics

BIOCARD offers innovative medical logistics solutions, including temperature-controlled packaging and transport systems, ensuring the safe delivery of biological samples and pharmaceuticals

BIOCARD

Genetic and Molecular Testing

We collaborate with CAP-accredited laboratories to provide advanced genetic and molecular testing services, supporting research institutions and healthcare facilities with cutting-edge diagnostics.

GENETIC
LABORATORY
SERVICES

Dermatology Innovations

Skin Wellness Solutions

In partnership with **Bellabaci International**, we offer premium aromatherapy oils and natural skincare products designed to promote physical, emotional, and spiritual well-being. These hand-crafted solutions address localized concerns, enhancing overall skin health and wellness.

bellabaci™

Dental Solutions

Through our collaboration with EasyinSmile, one of Asia's leading dental product providers, we offer a wide range of dental equipment, accessories, and consumables. From dental handpieces and orthodontic tools to ultrasonic scalers, we ensure dental professionals have access to the latest innovations for exceptional patient care.

easyinSmile®

Immunoassay Solutions

- Small but fast
- Long walk away time
- Low cost of consumables

AutoLumo *S900*

- **Smarter:** versatile and strong, brings more accurate results
- **Simpler:** easy operation and time-saving
- **Better:** superior performance

AutoLumo *A1860*

- Robust Performance
- Easy Operation
- Scalable Flexibility

AutoLumo *A2000 Plus*

AutoLumo *A6200 / A6600*
AUTOMATIC LUMINESCENCE IMMUNOASSAY ANALYZER

- Independent Decapping Module, Speed Up to 600 T/h
- Barcode Identification to Improve Sampling Efficiency

- High Throughput Reaches 600T/h
- Support 1-4 Unit Integration up to 2400T/h
- Three-track Design for Sample Management

AUTOMATIC LUMINESCENCE IMMUNOASSAY ANALYZER

01 Fixed Pipette Probe Module

- Teflon pipette without disposal tips
- Onboard sample dilution up to 2601-fold
- Intelligent liquid level and clot detection system
- Vertical and horizontal collision protection
- Sample & reagent adding by one needle

02 Reagent Module

- Independent refrigerating system in sleep mode
- Up to 25 reagent positions available
- Reagent stability onboard up to 28 days
- Online-reagent change without interruption

03 Substrate Module

- Dual substrate onboard by automatic switching

05 One-stop Consumable Panel

- 8 mm colored panel indicating consumables left
- RFID scanning of consumables

04 Vacuum Washing Station

- Vacuum system avoiding carry-over
- 5-times washing without contamination
- Integrated Wash & Measurement & Discard Module

06 Reaction Vessel Module

- Up to 160 pcs per batch (80 pcs x 2 cassette)
- Continuous loading and offloading

07 Sample Loading Module

- Sample Loading Module
- Loading capacity of 60 samples per batch
- STAT position of 1 channel
- Continuous loading and offloading available
- Random access

Specification

- Throughput:180 T/h
- Time to 1st Result:19 min
- RV Loading Capacity:80 X 2 pcs
- Sample Loading Capacity:80 samples with 1 STAT channel
- Sample Pipette Volume:8-150 μ L
- Sample Dilution Factor:up to 2601-fold
- Liquid Level Detection and Clot Detection
- Onboard Reagent Capacity:25 racks
- Onboard Reagent Storage:independent refrigerating system
- Real-time Replacement of Reagent by Appointment
- Consumables Residue Calculation (LED Monitor and Software Monitor)
- Substrate:Substrate A+B
- Substrate Volume:100 mL for each
- Substrate Switching:2 sets of substrates available on board by automatic switching
- Carry-over:< 1 ppm
- Reaction mode:1 step and 2 steps
- Size (W*D*H, mm):1200 x 736 x 635 mm
- Weight:183 kg

Smarter Versatile and strong, brings more accurate results

- Lower Carryover
Surrounding washing by vacuum brings low carryover, especially beneficial to infectious disease items
- Reduce failure rate
Stepping work station for magnetic separation, Integrated Elution & Injection & Reading & Discard Module
- Lower background
Bi-directional swimming for washing, decrease non-specific absorption.
- Improve precision
Innovative vibration mixing, Fully mixed within 1.8 s.

Simpler Easy operation and save time

- Consumable Management
Visual management of consumablesautomatic switch of dual-substrate.
- Reagent Management
Keep cooling in sleep mode. Random access.
Auto-retesting

PRAXIS™ PRO

HOOKS OPTIONS AVAILABLE

MILLED SLOT
Milled slots are dimensionally accurate, allowing for the fullest expression of prescription

80 GAUGE MESH

SANDBLASTING OPTION
The super retention pad utilizes dual mechanical retention by sandblasting the 80 gauge mesh. This process increases pad surface area for greater mechanical lock.
Available upon request

WORLD-CLASS FINISHING
The use of secret polishing media refined over 60 years allows super low friction mechanics

PRAXIS™ PRO

Praxis Pro embodies the pinnacle of orthodontic innovation, bringing together the best features available in the market while preserving Lancer's hallmark characteristics.

Torque-in-base

Torque control in the base ensures precise and efficient tooth positioning, improving treatment outcomes and stability while enhancing patient comfort and aesthetics

Diagonal Angulation

The diagonal angulation ensures accurate tooth alignment and orientation, enhancing treatment efficiency and effectiveness while improving overall dental aesthetics and stability

ULTRA LOW PROFILE

PRAXIS PRO

Common style

PRAXIS PRO

Common style

Ultra low profile coupled with accurate slot dimension, allow to finish cases confidently without added work due to bracket slop.

Because nothing but the highest levels of accuracy will do, Lancer uses a precision manufacturing process to form exact archwire slots.

Milled slots are dimensionally accurate and highly functional, allowing for the fullest

MILLED

REDI PAK

MESH BASE

All the advantages of a twin design with the benefit of Passive SLB techniques.

Precisely engineered and manufactured with a focus on performance and patient comfort, Lancer's Velocity passive stainless steel self-ligating brackets are packed with all the features to achieve excellent results every time.

- *Clip covers the mesial/distal width, for rotational control; allowing the wire to use the width of the bracket without auxiliaries*
- *Deep tie-wing undercuts for easy ligation*
- *NiTi clip offers superior flexibility, resisting breakage and jamming*
- *Clip locking mechanism ensures the clip remains securely engaged*
- *The base is compound contoured for increased bond strength and accurate bracket placement*
- *Torque in base for improved level slot lineup and finishing*
- *Color I.D. marks for easy identification*

Recommended Archwire Sequence

Lancer offers an extraordinarily broad and diverse range of diameters, material types and archforms to meet every clinical requirement. Our User Guide highlights the most popular wire choices for every phase of orthodontic treatment.

Stage I - Round Wires

Archwire	Duration	Objective
.014" Copper NiTi Universal Form Item No: 52UN-014 w/ Stops: 52UN-014S	10-20 Weeks	• Level and align • Initiate arch development • Correct rotations

Stage II - Rectangular Archwires

Archwire	Duration	Objective
.014" x .025" Copper NiTi Universal Form Item No: 52UN-1425 w/ Stops: 52UN-1425S	10-20 Weeks	• Complete leveling and aligning • Resolve remaining rotations • Begin torque control and anterior space consolidation • Continue arch development
.018" x .025" Copper NiTi Universal Form Item No: 52UN-1825 w/ Stops: 52UN-1825S	4-6 Weeks	• Express additional torque control as needed • Continue arch development

Stage III - Mechanics at Work

Archwire	Duration	Objective
.018" x .025" Beta Titanium Universal Form Item No: 56UN-1825	20-30 Weeks	• Finish torque control • Consolidate posterior space • Adjust buccal, lingual, anterior, and posterior • Coordinate patient arch form

Stage I - Finishing

Archwire	Duration	Objective
.019" x .025" Beta Titanium Universal Form Item No: 56UN-1925	10 Weeks	• Final detailing as necessary

The chart above is the suggested order, duration, and objective of basic archwire sequence and by no means a replacement for professional expertise.

VELOCITY™ PASSIVE SLB

Lancer's Velocity™ passive self-ligating brackets perform as good as they look. With a low profile design for ultimate patient comfort and a NiTi clip with a secure locking mechanism, these stylish brackets are easy to use.

The Velocity™ SLB system is a robust and effective self-ligating bracket system that allows you to achieve quick leveling and aligning, and finish to the demanding criteria you expect. Simply bond the bracket, clip the wire into place, and enjoy the results.

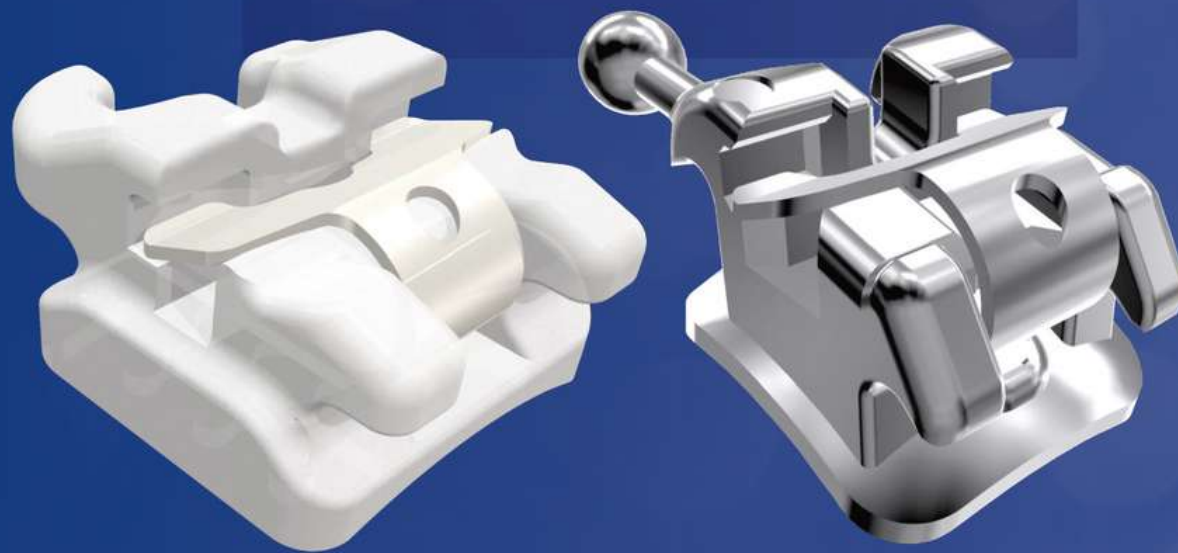

Engineered for maximum patient comfort and ease of use, Velocity™ metal SLB brackets feature a self-ligating clip that is constructed of strong yet flexible nickel titanium. The clip is easy to operate and does not require a specific instrument.

The passive design provides excellent sliding mechanics, which allows for fast and accurate tooth movement. The tolerances of the sliding clip are engineered to deter the build-up of food debris, plaque or tartar. This bracket design promotes good oral hygiene and allows the bracket to function as intended over the duration of treatment.

Manufactured using the latest Metal Injection Molding (MIM) technologies, Velocity™ buccal tubes offer a sleek and stylish design for maximum patient comfort and clinical effectiveness.

SINGLE BUCCAL TUBES

The latest design of an extremely low-profile buccal tube, Velocity™ buccal tubes eliminate the frustration and wasted time of threading a wire into the small opening of traditional buccal tubes. The trumpeted entrance of our Velocity™ tubes facilitates easy wire insertion. Wires are guided effortlessly into the expansive entrance, simplifying arch wire adjustments and saving valuable chair time.

This tube offers patient comfort and clinical effectiveness in one powerful appliance.

- Funneled entrance for easy wire insertion, occlusal/gingival positioning guides to aid in placement, and a distal notch for additional ligation
- Bondable and Weldable – Available in Roth and MBT Rx's, .018 and .022
- Tube length 4.0 mm (Long Bondable) and 3.2 mm (Short Bondable)

WIRE ARCHFORMS

Wires...

Make your most important choice count

BACKED BY MORE THAN 50 YEARS OF REAL CLINICAL EXPERIENCE, LANCER RECOGNIZES THAT CHOOSING THE CORRECT ARCHWIRE IS ONE OF THE MOST CRUCIAL DECISIONS AN ORTHODONTIST CAN MAKE TO ENSURE MAXIMUM BRACKET SYSTEM EFFICIENCY AND PERFECT TREATMENT RESULTS.

Our clinical experience has shown that even the most technologically advanced bracket systems will not perform as intended when enlisted with poor quality archwires. Today's precisely designed and manufactured orthodontic appliances require high-quality materials to ensure maximum efficiency, so choosing the right wire is critical for successful treatment.

Lancer takes great pride in offering only the highest quality, best performing orthodontic products available. We offer a wide variety of high-quality orthodontic wire in a full range of wire types, arch forms, sizes, and force values. The design and materials incorporated into these wires inherently reduce treatment and chair time while offering the patient maximum comfort and flawless treatment results.

Make orthodontic treatment exciting and increase patient cooperation with our colorful line of elastics, chains, and ties.

Keeping patients engaged is one of the keys to a successful treatment. With Lancer's brilliant rainbow of colorful elastomers, patients can express themselves with the elastics that best fit their personalities. This helps to increase patient participation, thereby helping to ensure perfect results. Lancer's elastomers are manufactured from the highest quality, surgical grade materials, which exhibit consistent force levels for effective tooth movement.

Masks & Face Bows

Convincing patients to regularly wear their headgear is one of the greatest challenges of a successful treatment. Now you can alleviate patient anxiety with Lancer's fashionable line of extraoral force products. Our cervical, high-pull and combination appliances provide measureable, consistent force levels and feature safety release force modules to avoid dangerous "slingshot" rebound injuries.

LOCAL / TOPICAL ANESTHETIC

INJ. LIGNO PRICK CARTRIDGES

2 % Lignocaine With Adrenaline 1: 80000

Packing: 1.8ml X 50 Cartridges

INJ. ARTI PRICK CARTRIDGES

Articaine HCL 4% and epinephrine 1 : 1,00,000

Packing: 1.7ml X 50 Cartridges

INJ. LA- FORCE

2% Lignocaine Hydrochloride + Adrenaline (1: 80000)

Packing: 30ml

INJ. LIGNO-AD

2% Lignocaine Hydrochloride + Adrenaline (1: 200000)

Packing: 30ml

VISHAL CARE GEL

20 % Benzocaine Surface Anaesthetic Gel (Flavour -Orange, Pineapple, strawberry, cherry)

Packing: 40gm

LIGNO SPRAY

(Mint Flavour)

Surface Anaesthetics Lignocaine Spray

Packing: 100gm

V-CAVISHIELD

Anti- cavity tooth cream with Tri Calcium Phosphate and Fluoride

Packing: 50gm

ORAL HYGIENE

FLUOROVIL GEL

Fluoride Gel (APF GEL) (Flavours- Orange, Strawberry)

Packing: 200gm

FOAM TRAY

Moulded Foam Trays Fluoride Application

Packing:

Small Size = 30Nos.

Large Size = 24Nos.

DESENSE

(Desensitizer)

Dual actions - potassium Nitrate + Strontium chloride in clinic Treatment of sensitivity

Packing: 15gm

V-CARIE-SOLVE

(caries dissolving gel)

New Caprica Papaya Extract Gel With Vitamin 'A' & 'C' for the chemo mechanical removal of dental caries

Packing: 2X2gm

PLAKIL PLUS

2% Chlorhexidine Concentrated Mouthwash Flavour (Raspberry, Orange & Mint)

Packing: 200ml

PLAKIL M/W

Alcohol Free Chlorhexidine Gluconate 0.2 % W/V Mouth Wash

Packing: 100ml & 1Ltr

LUBRICANTS

AHN Pipet4u Pro: Precision and Comfort in Your Hand

Experience a new level of precision and ergonomic comfort with the AHN pipet4u Pro single-channel manual pipette. Meticulously engineered for accuracy, this pipette is the ideal choice for laboratories demanding reliable and repeatable results.

What sets the AHN pipet4u Pro apart is its exceptional accuracy and user-friendly features. The large, clear display makes it easy to read and set the desired volume, while the locking mechanism prevents accidental volume changes during use, ensuring your measurements are always precise. Each pipette is color-coded for easy identification of the volume range, streamlining your workflow and reducing the chance of errors. Fully autoclavable, the AHN pipet4u Pro is designed for easy decontamination, ensuring the integrity of your samples.

Variants & Sizes:

The AHN pipet4u Pro is available in a comprehensive range of volumes to meet all your laboratory needs. Each pipette is sold individually.

- 0.5-10 μ L (Code: 8-101-20-9)
- 5-50 μ L (Code: 8-103-20-9)
- 20-200 μ L (Code: 8-105-20-9)
- 50-200 μ L (Code: 8-105-21-9)
- 100-1000 μ L (Code: 8-106-20-9)
- 200-1000 μ L (Code: 8-106-21-9)
- 0.5-5 mL (Code: 8-107-20-9)
- 2-10 mL (Code: 8-108-20-9)

AHN pipet4u Revolution: Redefining Pipetting Efficiency

The AHN pipet4u Revolution is more than just a pipette; it's a testament to innovation in liquid handling. This single-channel electronic pipette is designed for high-throughput laboratories where efficiency and accuracy are paramount. The Revolution combines the ease of manual pipetting with the precision of an electronic system, significantly reducing user effort and improving reproducibility. The standout feature of the AHN pipet4u Revolution is its intuitive user interface and multiple pipetting modes, including standard pipetting, multi-dispensing, and mixing. This versatility allows you to streamline complex workflows and handle various liquid types with ease.

Variants & Sizes:

The AHN pipet4u Revolution is available in several volume ranges to suit your specific applications. Each pipette is sold individually.

- 0.2-10 μL (Code: 8-500-00-0)
- 5-100 μL (Code: 8-501-00-0)
- 10-200 μL (Code: 8-502-00-0)
- 50-1000 μL (Code: 8-503-00-0)
- 100-5000 μL (Code: 8-505-00-0)

AHN Pipette Stands: Organization and Protection for Your Pipettes

Keep your valuable pipettes organized, safe, and within easy reach with AHN's range of high-quality pipette stands. A well-organized workspace is crucial for efficiency and accuracy, and our stands are designed to provide a stable and convenient storage solution for your pipettes. Proper storage not only extends the life of your pipettes but also prevents damage and contamination.

Our pipette stands are designed to be both functional and stylish, complementing any laboratory setting. From fixed-place stands to versatile carousel and mounting options, we have a solution for every lab's needs. The robust construction ensures stability, while the sleek design saves valuable bench space.

Available Options:

- AHN Pipette Stand 4 places, fixed place, white (Code: 8-130-00-9)
- AHN Pipette Stand 6 places, fixed place (Code: 8-131-00-9)
- AHN myPette Pro Carousel stand for 6 pipets (Code: 8-133-00-9)
- AHN myPette Pro Shelf mounting stand (Code: 8-133-01-9)
- AHN Pipette Stand 1 place, variable place (Code: 8-132-01-8)

AHN myDPette Bottle Top Dispenser: Safe and Reliable Reagent Dispensing

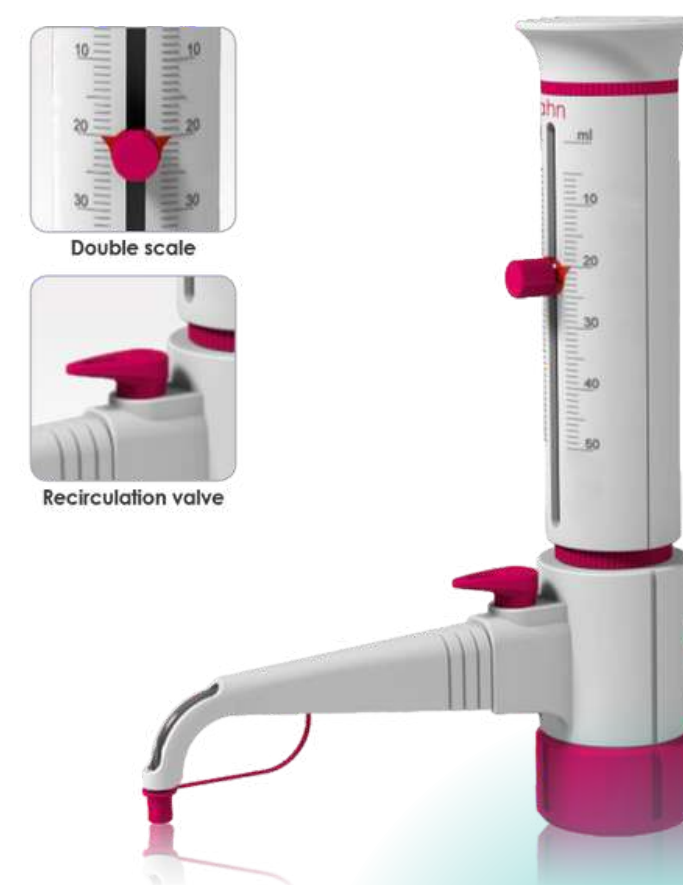

The AHN myDPette Bottle Top Dispenser offers a safe, reliable, and convenient solution for dispensing reagents directly from the bottle. Designed with user safety and ease of use in mind, the myDPette minimizes the risk of spills and exposure to hazardous chemicals. Its robust construction and high-quality materials ensure broad chemical compatibility and a long service life.

What makes the myDPette a superior choice is its user-friendly design, featuring a smooth and easy-to-use dispensing mechanism. The clear volume display allows for precise and repeatable dispensing, while the recirculation valve prevents reagent loss during priming. The myDPette is fully autoclavable, ensuring sterility and preventing cross-contamination. With its combination of safety, precision, and durability, the AHN myDPette is an indispensable tool for any laboratory.

Variants & Sizes:

The AHN myDPette is available in various volume ranges to accommodate different dispensing needs. Each dispenser is sold individually.

- 0.5 - 5.0 mL (Code: 8-701-00-0)
- 1.0 - 10.0 mL (Code: 8-702-00-0)
- 2.5 - 25.0 mL (Code: 8-703-00-0)
- 5.0 - 50.0 mL (Code: 8-704-00-0)

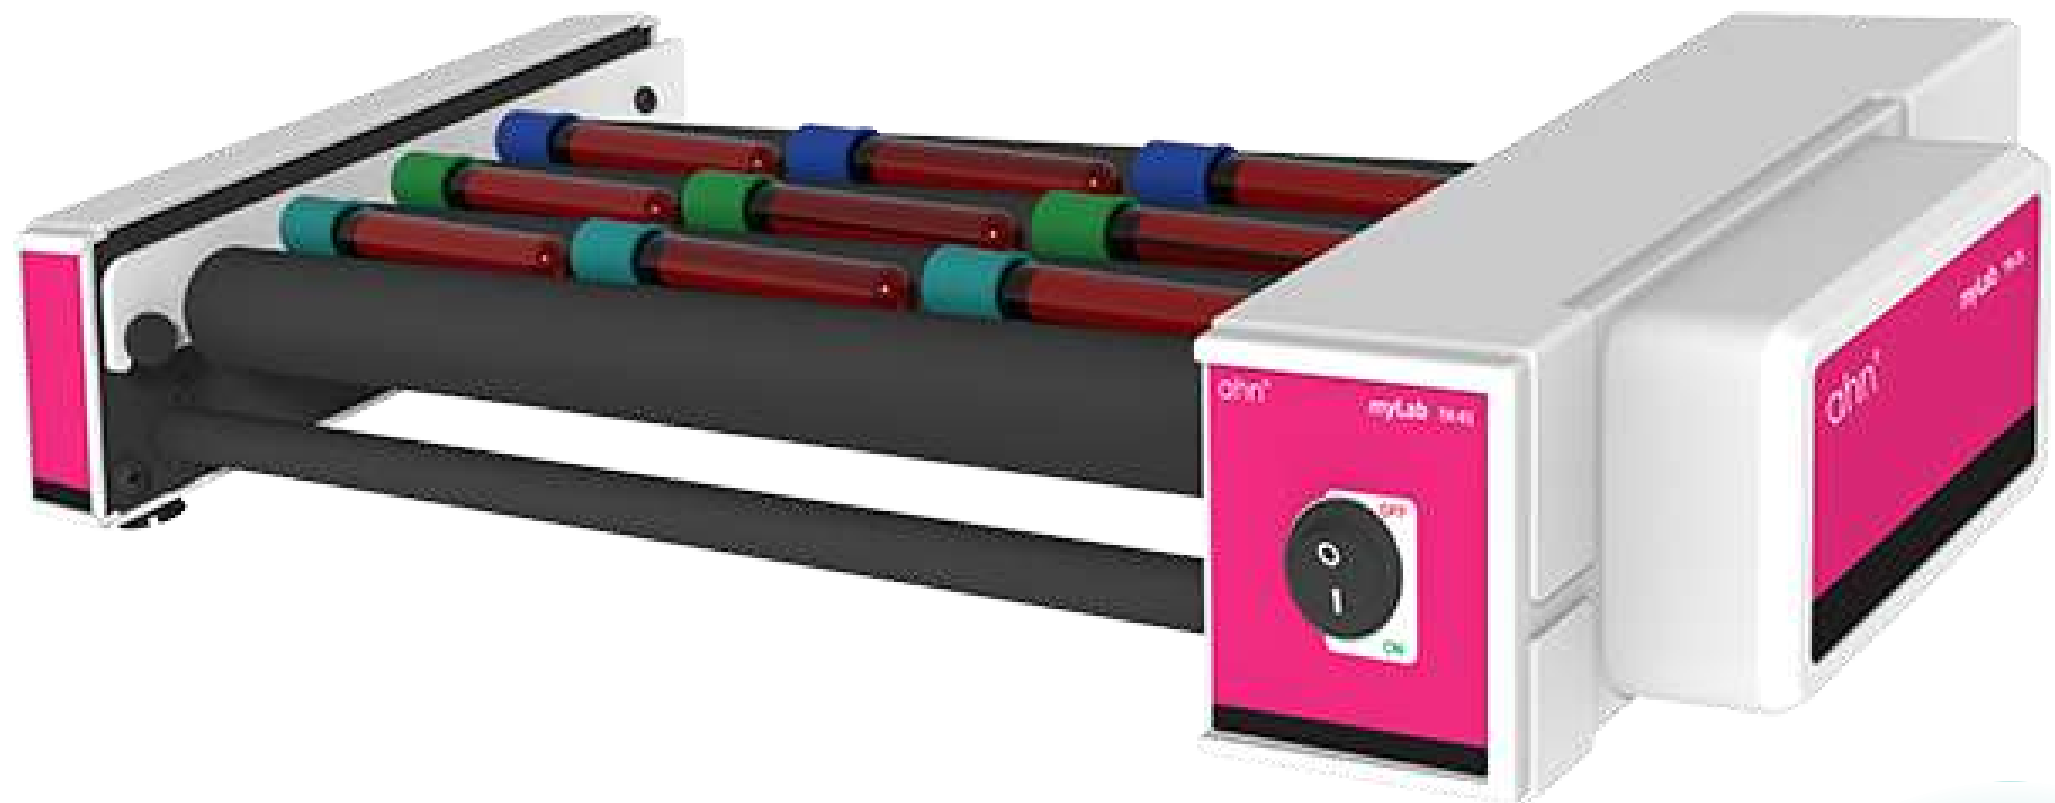

AHN myLab TR-01: Versatile and Efficient Tube Roller

The AHN myLab TR-01 is a compact and versatile tube roller designed for gentle and effective mixing of biological samples, viscous substances, and liquid-solid suspensions. Its rocking and rolling action provides a thorough yet gentle mixing, making it ideal for a variety of applications, including blood sample mixing, hybridization, and cell culture.

The myLab TR-01 stands out with its space-saving design and quiet operation. The adjustable speed control allows you to optimize the mixing process for different sample types and viscosities. The removable rollers are easy to clean and can accommodate a wide range of tube sizes. Whether you are working in a clinical, research, or industrial laboratory, the AHN myLab TR-01 provides reliable and consistent mixing performance.

Product Details:

- AHN myLab TR-01 (Code: 7-200-00-0)

AHN myTip® Pipette Tips: The Perfect Partner for Your Pipette

Achieve the highest level of accuracy and precision with AHN myTip® pipette tips. Designed to provide a perfect seal with a wide range of pipettes, these tips ensure that every dispense is accurate and reproducible. Made from high-quality, virgin polypropylene, myTip® tips are free from any contaminants that could interfere with your experiments.

AHN offers a comprehensive range of pipette tips to suit every application. Whether you need filtered, low-retention, or standard tips, myTip® has you covered. The LFT (Low Filter Tip) and LT (Low Tip) versions are ideal for sensitive applications, minimizing sample loss and aerosol contamination. The FT (Filter Tip) provides an extra layer of protection against cross-contamination. All racked tips are sterile, ensuring the integrity of your samples.

Variants & Sizes:

AHN myTip® LFT (Low Filter Tip), clear, sterile, racked:

- 10 µL (Code: 5-003-C5-0)
- 20 µL (Code: 5-118-C5-0)
- 100 µL (Code: 5-120-C5-0)

- 1000 µL, blue (Code: 1-202-80-2)

Microscope Slides for Diverse Laboratory Needs

Our high-quality microscope slides are designed to meet the rigorous demands of various laboratory applications, from routine diagnostics to specialized immunofluorescence and cell culture. All slides are manufactured to exacting standards, ensuring reliability and optimal performance.

Variants & Sizes:

AHN myTip® LFT (Low Filter Tip), clear, sterile, racked:

- 10 µL (Code: 5-003-C5-0)
- 20 µL (Code: 5-118-C5-0)
- 100 µL (Code: 5-120-C5-0)
- 200 µL (Code: 5-128-C5-0)

HWTai Products

HWTai® offers a comprehensive range of microscope slides for lab and clinical use. Their Super Grade slides provide cost-effective precision from water-white glass. The CSW (Super White Glass) series ensures ideal optical clarity and stability. **Standard Class slides are also available, meeting HWTai® standards**

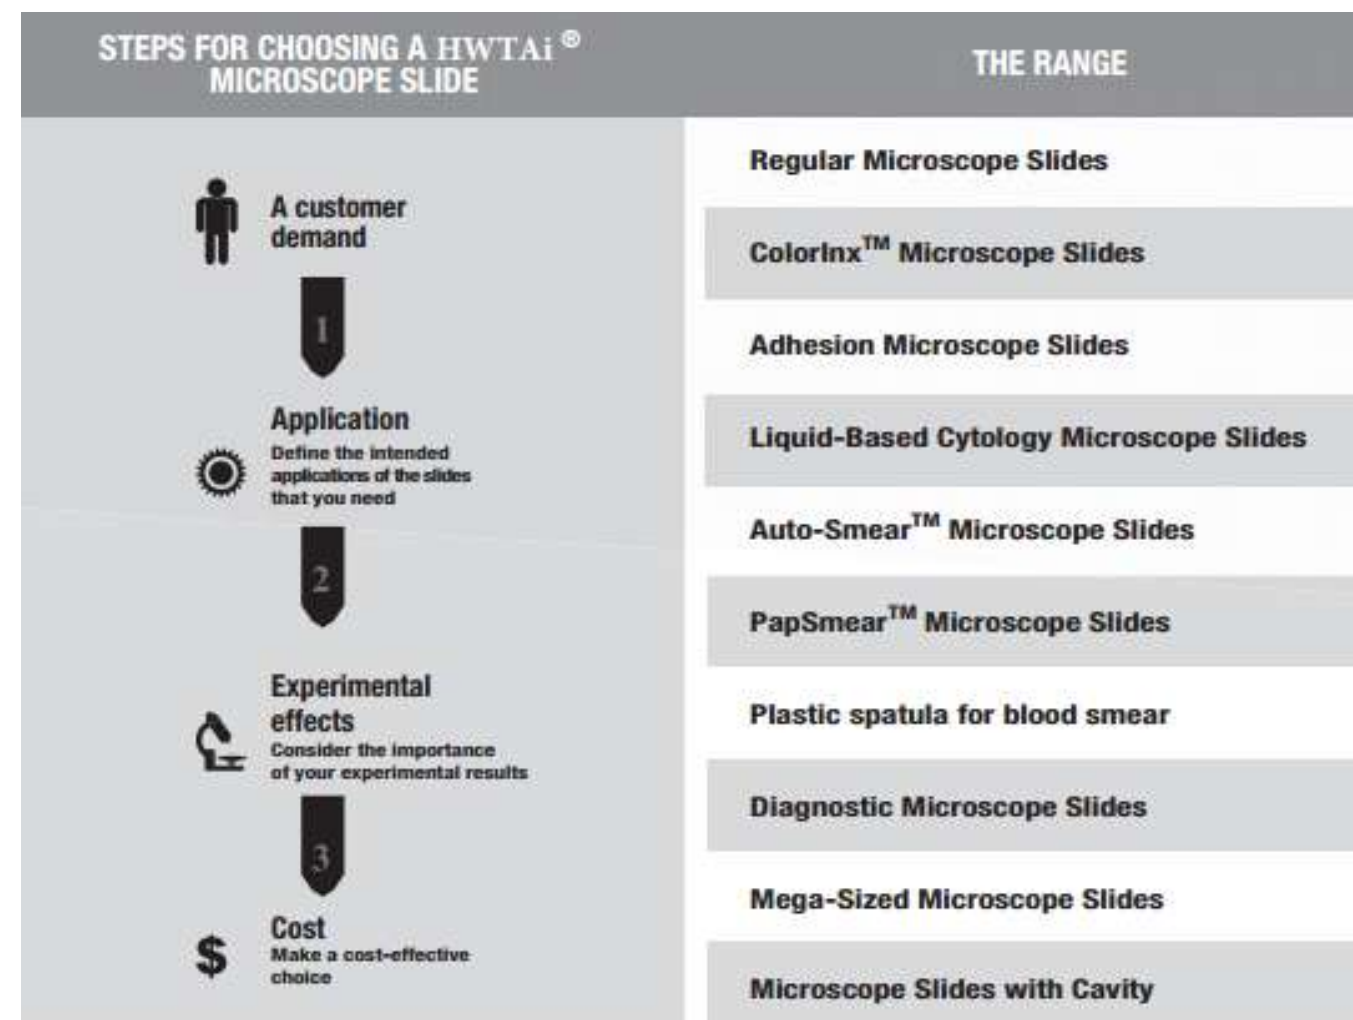

HWTai® Microscope Slide Standards

HWTai® microscope slides are manufactured according to the ISO 8037/1 international standard, ensuring high quality and suitability for various applications.

Beyond this, production can also incorporate:

- BS7011:SECTION 2:1;1989
- Various customized demands and requirements based on your specific needs.

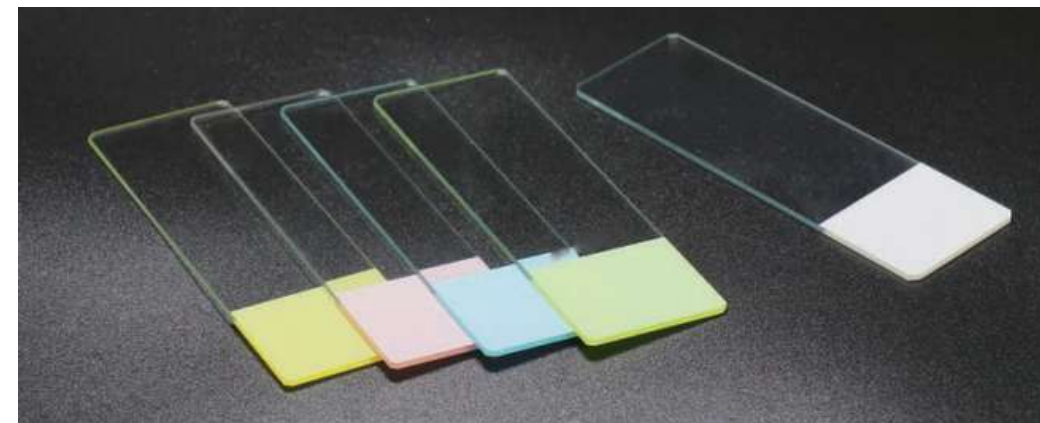

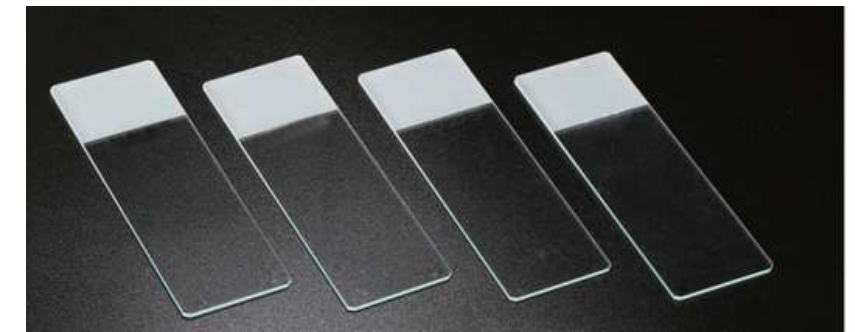

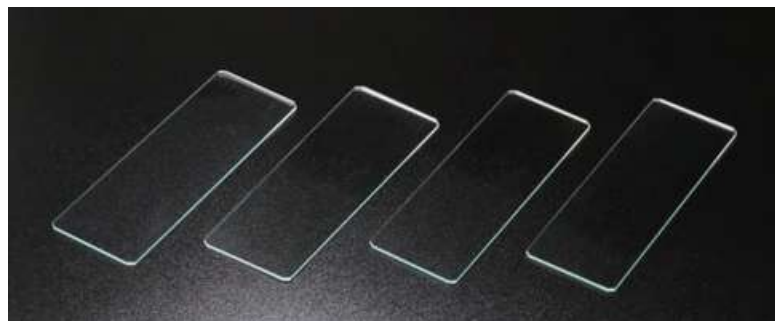

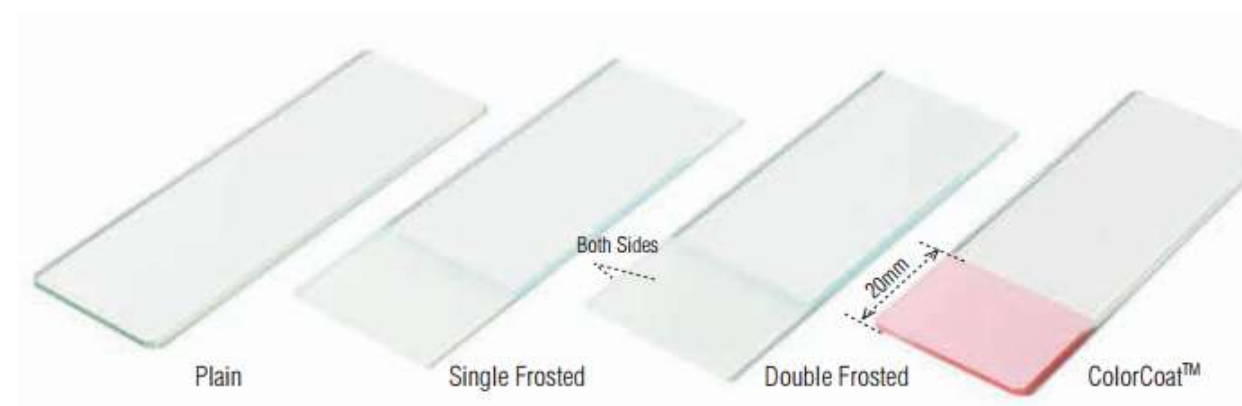

The CSW (Super White Glass) series offers ideal optical properties for accurate results, while Super Grade slides provide cost-effective precision from water-white float glass. Standard Class slides are also available, produced from green flat glass to **HWTai®** standards..

Regular Microscope Slides

Designed for routine experiments where no extra adhesion or adaptability to slide labelers is required in histology, pathology, haematology, cytology, microbiology, etc, for blood or body liquid tests, frozen tissue section examinations, biological specimen preparations, etc

1. Plain slide ground edge MICROSCOPE SLIDE, STANDARD GRADE, GROUND EDGES, PLAIN, 90° CORNERS, DIM. 75.0X25.0X1.0MM
2. Single side Froster Slide ground edge white MICROSCOPE SLIDE, STANDARD GRADE, GROUND EDGES, FROSTED 1 END 1 SIDE, 90° CORNERS, DIM. 75.0X25.0X1.0MM.
3. Double side Froster Slide ground edge white MICROSCOPE SLIDE, STANDARD GRADE, GROUND EDGES, FROSTED 1 END 2 SIDES, 90° CORNERS, DIM. 75.0X25.0X1.0MM.

Microscope Cover Glass

HWTai manufactures and supplies a variety of microscope cover glasses. Provided with different raw materials, personalised craftsmanship, various quality control standards and tailored packaging, the **HWTai® microscope cover glass**

Made of the **HWTai super white (CSW) glass sheets**, feature ideal optical properties, stable molecular structure, uniform flatness and uniform sizes with **HINGED-LID BOX, INDIVIDUALLY WRAPPED BY ALUMINUM VACUUM PACK W/DESICCANT**

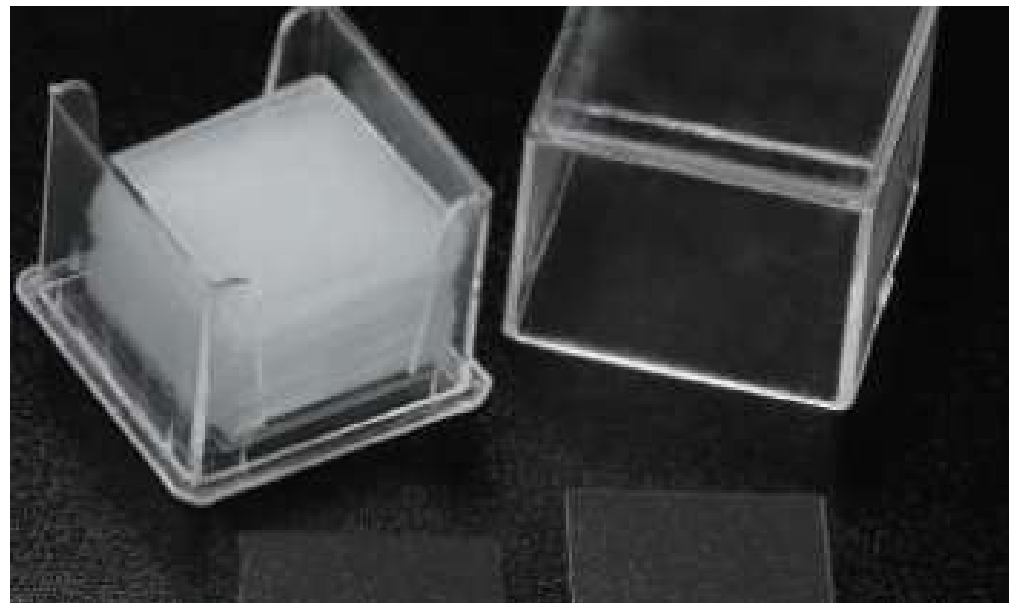

Recommended application: manual workflow in **histology, cytology, urinalysis and microbiology** with different sizes

1. Microscope Cover Glass 22x22 MICROSCOPE COVER GLASS 22×22MM, SUPER WHITE GLASS, 1.0# 0.13-0.16MM THICK
2. Microscope Cover Glass 24x24 MICROSCOPE COVER GLASS 24×24MM, SUPER WHITE GLASS, 1.0# 0.13-0.16MM THICK
3. Microscope Cover Glass 24x40 MICROSCOPE COVER GLASS 24×40MM, SUPER WHITE GLASS, 1.0# 0.13-0.16MM THICK,
4. Microscope Cover Glass 24x60 MICROSCOPE COVER GLASS 24×60MM, SUPER WHITE GLASS, 1.0# 0.13-0.16MM THICK

Hemocytometer Cover Glass

- Made of the HWTai super-grade glass sheets
- Thickness 0.4mm
- Ideal optical properties, stable molecular structure
- Uniform flatness and uniform size
- Packing: pcs/pack, 10 pcs/inner box, packs/carton
- HEMACYTOMETER COVER GLASS 20X26MM, POLISHED EDGES, SQUARE CORNERS, THICKNESS 0.4MM

Microscope Marking Pen

The marker pen is ideal for labeling microscope slides, which are widely used in histology, pathology, and cytology.

- The ultra-fine tip allows precise hand marking on almost any surface, including glass and plastic.
- Permanent and waterproof ink is resistant to many laboratory chemicals and solvents in processing and staining.

MARKER PEN, BLACK COLOR, 1MM TIP, 12 PCS/BOX

Tissue processing embedding cassettes

One-piece and snap-latch design allows convenient one-hand operations and helps Re-lock the lid firmly during the processing.

45° anterior writing surface, adaptable to most of the cassette labellers

- Made of POM material, 100% resistant to the chemical reaction of histological solvents
- With rectangular holes in dimensions of 5.0mm × 1.0 mm
- With two large labelling areas on the cassette sides and one slanted front writing surface

Biopsy Processing/Embedding Cassettes

- Made of P.O.M material, 100% resistant to chemical reaction of histological solvent
- With square holes in dimensions of 0.9mm×0.9mm
- With two large labeling areas on the cassette sides and an improved slanted front writing surface of 45°angle, specially for the thermal transfer printing system
- Detachable lid easy to remove and re-insert
- Pre-loaded by sleeves or tapes, considerably optimizing the user convenience

Base Moulds

- Reusable Base Molds
- Designed for facilitating same styles and same types of cassettes and embedding O rings in specimen embedding, compatible with most of the commonly-used embedding equipments
- With fine polished surface and well-grounded corners.
- they are strong enough for limited re-use.
- DIM.30X24X7MM
37X24X7MM

Disposable Base Molds

- Designed for facilitating same styles and same types of cassettes and embedding “O” rings in specimen embedding, compatible with most of the commonly-used embedding equipment’s
- With smooth surface finishing and round corners.
- Specially-formulated plastic material
- Sizes:
 - EXT.DIM.50X37X12MM, WELL DIM.7X7X5MM
 - EXT.DIM.50X37X12MM, WELL DIM.25X32X5MM
 - EXT.DIM.50X37X12MM, WELL DIM.25X40X5MM

Biopsy Bags

- Used to hold small biopsy and histological specimens during processing
- Made of solvent-resistant Polyester, effectively prevents deformation
- Thin mesh (0.2×0.2 mm) provides excellent fluid exchange and avoids tiny specimen floss
- Convenient peel-open bag allows for placing and removing specimens rapidly
- Sizes: DIM.30×45MM
DIM.45×75MM
DIM.75×95MM

Biopsy Form Pad

- Designed for assisting the regular cassettes in holding the tiny biopsy specimens in place during processing, fits all the HWTAi regular cassettes
- Made of PU foam
- Packing: 5,000pcs/pack, 20,000pcs/carton
- 30mm×25mm×2mm

Cassette Dispensing Sleeves

Used for pre-loading the cassettes, which can be accommodated directly by the cassette labelers so as to eliminate hand inserting of cassettes and optimize user convenience.

Paraffin Wax

Designed for improved tissue section infiltration and embedding and supplied in convenient zip-lock bag

- Compound of purified paraffin and plastic polymers
- Without dimethyl sulfoxide (DMSO)
- Delivers smooth cutting, minimised compression & cell disruption
- Cutting thickness lowered to 2 μm
- Convenient pearl shape
- Wide supply range from 52°C to 62°C for your choice

Transport Swab

Transport swab without media

MICROBIOLOGICAL SPECIMEN COLLECTING AND TRANSPORTING SET, CONSISTS OF 1 RED CAP, 1 SWAB (VISCOSE HEAD+PS STICK) 150MM LONG AND 1 LABELLED Φ 13X150MM PP TUBE. E.O. STERILE

Transport swab with Stuart Gel

MICROBIOLOGICAL SPECIMEN COLLECTING AND TRANSPORTING SET, WITH STUART. CONSISTS OF 2 WHITE CAPS, 1 SWAB 150MM LONG (SNAPPABLE PS STICK + VISCOSE HEAD) AND 1 LABELLED PP TUBE WITH DIA.13X150MM. INDIVIDUAL PEEL PACK, GAMMA STERILE

Transport swab with Amies Gel

MICROBIOLOGICAL SPECIMEN COLLECTING AND TRANSPORTING SET, WITH AMIES. CONSISTS OF 2 BLUE CAPS, 1 SWAB 150MM, LONG(SNAPPABLE PS STICK + VISCOSE HEAD) AND 1 LABELLED PP TUBE WITH DIA.13X150MM. INDIVIDUAL PEEL PACK, GAMMA STERILE

Transport swab with Stuart Gel/with charcoal

MICROBIOLOGICAL SPECIMEN COLLECTING AND TRANSPORTING SET, CONSISTS OF 1 RED CAP, 1 SWAB (VISCOSE HEAD+PS STICK) 150MM LONG AND 1 LABELLED Φ 13X150MM PP TUBE. E.O. STERILE

Transport swab with Amies Gel/with charcoal

MICROBIOLOGICAL SPECIMEN COLLECTING AND TRANSPORTING SET, WITH AMIES W/CHARCOAL. ADD. CONSISTS OF 2 BLACK CAPS, 1 SWAB 150MM LONG(SNAPPABLE PS STICK + VISCOSE HEAD) AND 1 LABELLED PP TUBE WITH DIA.13X150MM. INDIVIDUAL PEEL PACK, GAMMA STERILE

Transport swab with Cary-Blair Gel

MICROBIOLOGICAL SPECIMEN COLLECTING AND TRANSPORTING SET, WITH CARY BLAIR. CONSISTS OF 2 RED CAPS, 1 SWAB 150MM LONG(SNAPPABLE PS STICK + VISCOSE HEAD) AND 1 LABELLED PP TUBE WITH DIA.13X150MM. INDIVIDUAL PEEL PACK, GAMMA STERILE

Inoculation Loop 1ul & 10ul

1 ML : Inoculation loops, 1 μ L+Incorporated needle, AS material, NEUTRAL color, Hexagonal shaft, Gamma sterile, 20pcs/zip-lock pack

10 ML : Inoculation loops, 10 μ L+Incorporated needle, AS material, BLUE color, Hexagonal shaft, Gamma sterile, 20pcs/zip-lock pack

Petri Dish

PETRI DISHES, PS MATERIAL. DIA.90MM X 15MM, 1 ROOM/3 VENTS. E.O.STERILE

Multiwell Plate

Ideal for a wide range of applications, such as agglutination reactions and washing in ELISAs (U bottom), centrifugation and sedimentation (V bottom), colourimetric assays and suspension cell cultures (Flat bottom). Dimensions conform to ANSI/SBS microplate standard, compatible with standard and automated equipment

High optical clarity and low background interference

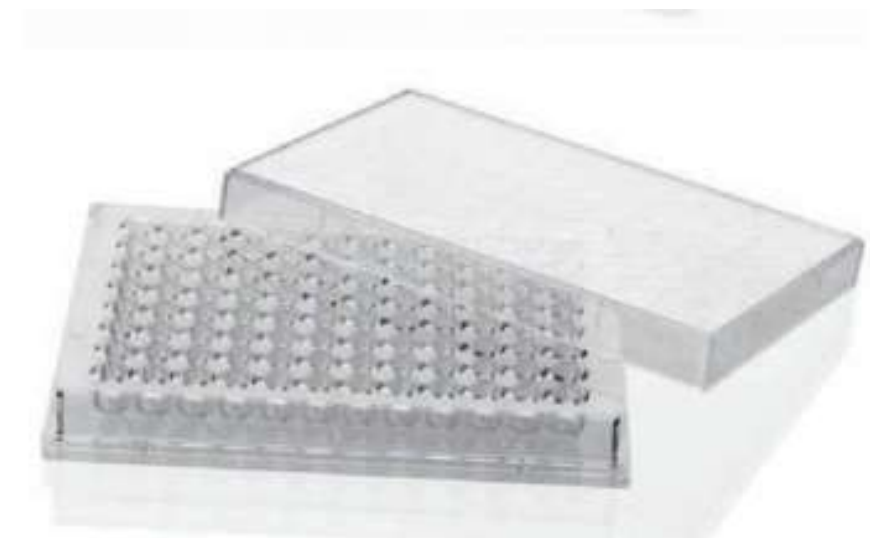

- Alpha-Numeric codes for easy identification
- A locking one-way lid minimizes evaporation during

long-term incubation

- Stackable

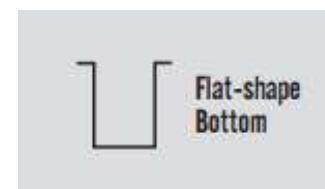

Multiwell plate U bottom

MICROPLATE 96 WELLS, U-SHAPE BOTTOM, W/ LID, PS MATERIAL. INDIVIDUAL FLOW-PK, GAMMA STERILE

Multiwell Plate Flat bottom

MICROPLATE 96 WELLS, FLAT-SHAPE BOTTOM, W/ LID, PS MATERIAL. INDIVIDUAL FLOW-PK, GAMMA STERILE

Culture Flasks

Made of high-grade medical PS, suitable for cell culture scale up, hydrophilic surface(TCtreated), improves cell attachment and proliferation

- Canted neck is easy for pipetting, cell scraping, and reducing the risk of dampening the cap inner surface
- Triangular blocked design improves stackability in the incubator
- Molded graduation facilitate filling accuracy
- Gamma sterile
- RNase-free, DNase-free and Non-pyrogenic
- Tamper-proof and re-sealable zip-lock package reduce the risk of contaminations

TOTAL VOL. (mL)	CULTURE AREA (cm ²)	WORKING VOL. (mL)	PACKING
50	25	5-8	10pcs/bag, 200pcs/carton
250	75	15-25	5pcs/bag, 100pcs/carton
600	175	35-50	5pcs/bag, 40pcs/carton

Bacti-cinerator Sterilizer

Designed to sterilise inoculation loops, needles and culture tube mouths with infrared heat safely and conveniently, preventing splatter of infectants and cross-contamination, especially suitable for use in anaerobic chambers.

- Ceramic tube with no asbestos, enclosed in stainless-steel perforated guard
- Stainless-steel support stand is weighted for stability and can store 6 needle holders
- Center high-temperature up to $825^{\circ}\text{C} \pm 50^{\circ}\text{C}$, ensure to complete sterilizations within 5-7s
- Max. diameter for sterilization, $\phi 14\text{mm}$ (HM-3000A) and $\phi 35\text{mm}$ (HM-3000C)
- Working environment: $-10^{\circ}\text{C} \sim 50^{\circ}\text{C}$, $\text{RH} \leq 90$

Sterilization Pouch

- Designed for autoclave or EO sterilisation in hospitals and laboratories
- Made of medical dialysis paper and/or compound film, resistance to tear and puncture
- The medical paper provides high porosity for fast sterilization while maintain an effective bacterial barrier
- The transparent compound film can show items within the pouch
- Flat seals ensure seal integrity and easy to open
- Color-coded indicators on every pouch identify the sterilization process used

Self-seal Sterilization Pouch

Medical self-adhesive strip can make rapid and efficient seal without professional sealing devices

P/N	DIM.of FILM(mm)	DIM.of PAPER(mm)	PACKING
2602-0010	57×100	57×130	200pcs/box,60boxes/carton
2602-0011	70×230	70×260	200pcs/box,20boxes/carton
2602-0013	90×230	90×260	200pcs/box, 20boxes/carton
2602-0017	190×330	190×360	200pcs/box,5boxes/carton

Autoclave Indicator Tape

Light yellow tape is designed for use with standard autoclaves. When passed through a steam sterilization cycle, the colour of the indicator stripe will turn to dark brown or black after 15 minutes of exposure to a temperature of 121°C (250°F). The pressure-sensitive adhesive permits easy application, strong adherence, and can be removed easily from the autoclaved object, even under high-temperature and high-pressure conditions.

Color: YELLOW

P/N	DIMENSION
2604-0004	13mm × 55m
2604-0005	19mm × 50m

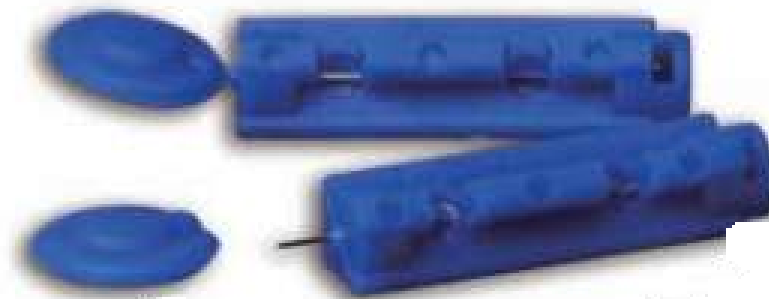

Alcohol Prep Pad

For external antiseptic use
only 70% Isopropyl alcohol

Lancet 28G

- Smooth tri-bevel needle tip for comfortable blood sampling
- Conventional twist-off cap, guarantee sterilization until the lancet is used
- Snap the used needle onto the cap before discarding the used lancet
- Compatible with most lancing devices

Capillary Tube

Designed for safe blood collection, as well as an accurate micro-hematocrit test

- Blue tip, untreated, fill rapidly without affecting specimen integrity
- Precision molded, provides excellent sample retention during centrifugation
- GLASS CAPILLARY, BLUE CODING, W/O
- HEPARIN, VOL.70ML, O.D.1.6–1.7MM, I.D.1.0MM,
- LENGTH: 75MM. 200PCS/VIAL

Hemocytometer

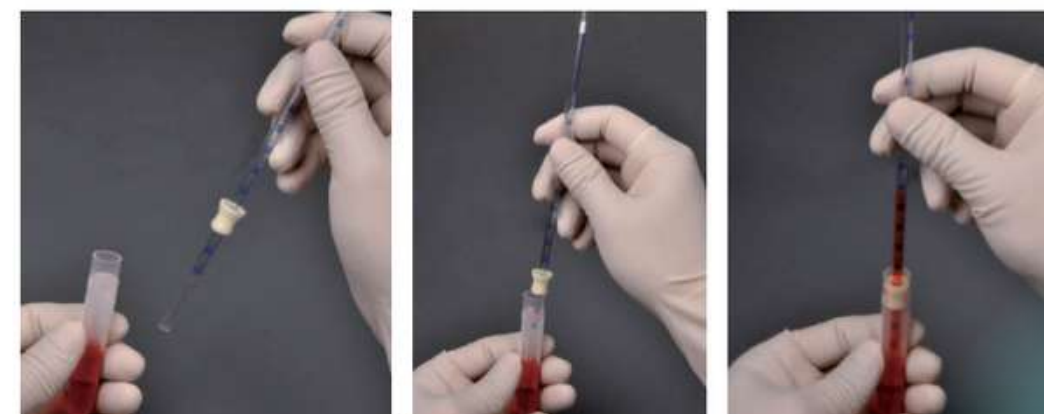

COUNTING CHAMBER, NEUBAUER-IMPROVED, USED FOR COUNTING THROMBOCYTES AND ERYTHROCYTES

Westgren ESR

A fibrous plug located at the zero mark, prevent hazardous substances escaping through the top of the pipette. A self-sealing stopper fixed outside the pipette, is compatible with $\Phi 12$ and $\Phi 13$ mm blood collection tubes.

E.S.R.PIPETTES, PS MATERIAL, DIA.4.5×230MM. GRADUATED FROM 0 TO 170MM WITH 1MM SUB-DIVISION

Urine Container

URINE CONTAINER, PP MATERIAL, VOL.60ML, MOLDED GRADUATION AT EACH 10ML UP TO 60ML, RED LID. Individually packed should have label

Stool Container

Urine container with attached spoon, PP material, Vol.. 60ml, with marking area, moulded graduation at each 10ml up to 60ml(0.5 fl.oz up to 2.0 fl.oz.). Lid made of PE material and is red colour. Individually packed EQ should have label

Tourniquet

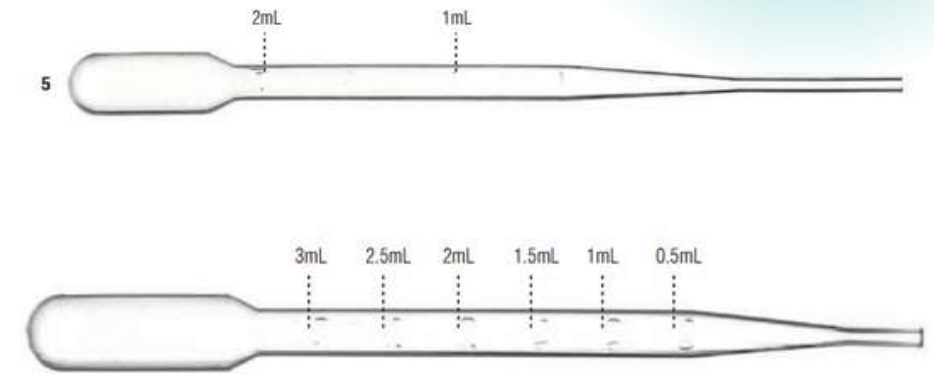

TOURNIQUET FOR ADULT, ABS AUTO LOCK BUCKLE, MADE OF STRONG ELASTIC STRAP (COTTON & MAN-MADE RUBBER). SIZE.25X450X0.6MM. BLUE COLOR

Pasture Pipette

Ideal for transferring and dispensing small amounts of liquid safely and rapidly.

- LDPE material, excellent transparency
- Sterile and non-sterile are available
- Sizes range from 1 ml to 3 ml

Micro Centrifuge tube

MICRO-CENTRIFUGE TUBE, PP MATERIAL, AUTOCLAVABLE. VOL.0.5ML/7.8X30MM, CONICAL BOTTOM, WITH HINGED LID& FROSTED WRITING AREA, MOLDED GRADUATION AT 0.1/0.3/0.5ML

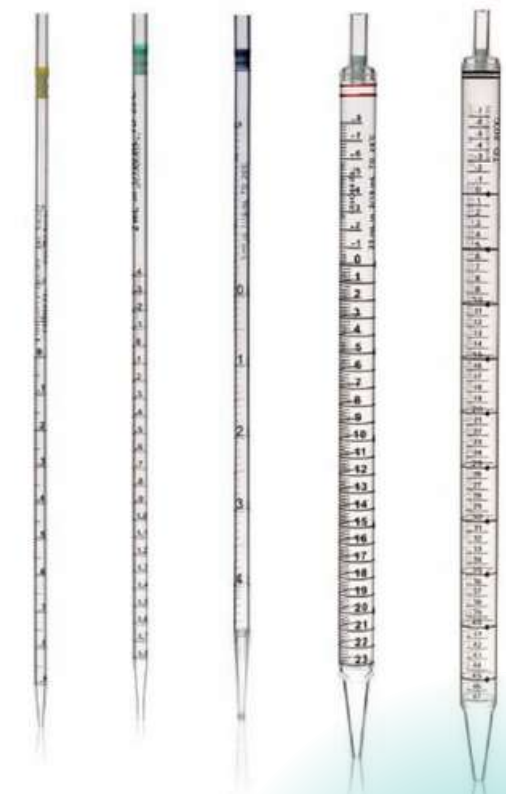

- sizes: 0.5 ml, 1.5ml, 2ml

Serological Pipette

Designed for quantitatively transferring and dispensing exact volumes of liquid.

- Biologically inert PS, disposable
- Easy-to-read graduation, color-coded by size for identification
- Volumes range from 5ml, 10ml, 25ml
- Non-sterile are available

Centrifuge Tubes

Centrifuge Tubes 10 ml PS

CONICAL TUBE, WITH RIM, PS MATERIAL,
VOL.10ML/16X102MM. 500PCS/POLYBAG

Centrifuge Tubes 12 ml PS

CONICAL TUBE, WITHOUT RIM, PP MATERIAL,
VOL.12ML/16.75X109MM, MOLDED
GRADUATION AT EACH 1/2ML UP TO 12ML.
500PCS/POLYBAG

DENTAL DEVICES

Dental K-File (SS Material)

SS K FILES

- 100% brand new.
- Directly from the factory
- High quality with CE certification.

SS K FILES - 21MM

- Sizes: #8, #10, #15, #20, #25, #30

SS K FILES - 25MM

- Sizes: #8, #10, #15, #20, #25, #30

SS K FILES- 31MM

- Sizes: #8, #10, #15, #25

Gutta Percha Point

GUTTA PERCHA POINT

- 100% brand new.
- Directly from the factory
- High quality with CE certification

GUTTA PERCHA POINT 0.2

- Sizes: #15, #20, #25, #30, #35, #40

GUTTA PERCHA POINT 0.4

- Sizes: #15, #20, #25, #30, #35, #40

GUTTA PERCHA POINT 0.6

- Sizes: #15, #20, #25, #30, #35, #40

Barrier Film

Barrier Film 4C

- COLOURS: BLUE, CLEAR
- Pack: 1200 pcs /roll

DISPOSABLE AIR WATER SYRINGE TIP

Disposable air water syringe tips

- Color: clear tips & color cores
- Pack: 250 pcs/bag, 50 bags/ctn

PROPHY CUPS SNAP

Prophy Cups Snap-On Regular

- Case Size: 33*30*18cm
- Pack: 100 pcs/box

Prophy Cups Snap-On Soft

- Case Size: 33*30*18cm
- Pack: 100 pcs/box

WHITENING POLISHING SHEETS

Whitening polishing sheets

- Pack: 40 PCS/ BOX

PREBENT NEEDLE TIP

Prebent Needle Tips

- Pack: 100 pcs/bag
- Sizes: 20G0.88mm: black,yellow, blue
22G0.7mm: black, grey, blue

ENDO IRRIGATION NEEDLE TIP

Endo Irrigation needle tips

- Sizes: EN90EC End-closed, one-side hole
EN90DS Double-sided hole

DENTAL BIBS

DENTAL BIBS

- SIZE : 33X45CM
- Pack: 500 PCS/BOX
- MIXED COLORS
- 3 PLYS

COTTON ROLLS

Cotton Rolls

- Sizes: 8*38 mm, 10*38 mm, 12*38 mm
- Pack : 600 PCS/ BAG

FACE SHEILD DISPOSABLE

Face Shield Disposable

- (1 frame & 1 sheet)
- Case Size: 69*40*39cm
- Pack: 200 sets/case

Dental Kit

6-in-1 dental kit

- Pack: 6 pcs/ bag

CREPE PAPER

Crepe Paper

- Size: 50 x 50
60 x 60
- Pack: 500 pcs/ box

EVACUATION TIP

EVACUATION TIP

- COLOUR: WHITE
- NON-VENTED

Cheek Retactor Expended

Cheek Retactor Expended

- colour: black, clear
- Size: Medium, Large
- PP Material
- Pack: 10 PCS/BAG

NEATEN CASES

Neaten Cases

- Size: 152*134*205 mm
- Material: PP
- Pack: 10 PCS/bag

DENTAL MIRROR

Dental shape mirror

- Pack: mixed colours

Retainer Box

Retainer Box

- Size: W 75mm x D 61mm x H 28mm
- Pack: 10 pcs/box

All Guard Box

All Guard Box

- Size: W 77 mm x D 77mm x H 38mm
- Pack: 10 pcs/box

Micro Applicators

Disposable Micro Applicators (barrel pack)

- PACKING: Barrel Pack
100 pcs/barrel, 4 barrels/box
- Sizes: 1. Regular (Diameter 2.5mm)
2. Fine (Diameter 2.0mm)
3. Ultrafine (Diameter 1.5mm)
4. Cylinder (Diameter 1.2mm)

MIXING TIPS

1:1 Mixing Tips

- Colour: Yellow
- Pack: 50 pcs/bag
- Size: Length: 40mm, 7 cm

1:4 Mixing Tips

- Colour: Blue/Orange,
- Pack: 50 pcs/pack
- Size: Length: 77mm, 9.2 cm

1:1 Mixing Tips with Core Tips

- Colour: Brown/White
- Pack: 50 pcs/pack
- Size: Length: 35mm

1:1 Mixing Tip

- Colour: Brown/White
- Pack: 50 pcs/pack
- Size: Length: 40mm

1:1 Mixing Tips

- Colour: Blue/White Long
- Pack: 50 pcs/pack
- Size: Length: 77mm, 7.6 cm

1:5 Mixing Tips

- Colour: Yellow dynamic tips
- Size: 5.25*3.7 cm
- Pack: 30 bags/case

1:5 Red Dynamic Mixing Tips

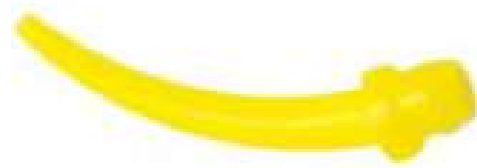

- Colour: Red dynamic tips
- Size: 4.9* 3.2cm
- Pack: 50pcs/bag

Intraoral Syringe Tips

Intraoral tips yellow

- Size: Length: 2.7*0.9 cm
- Pack: 50 bags/case

Prophy brushes

Prophy Brushes Snap- On Tapered

Color: white

Case Size: 34*30*18cm

Pack: 100 boxes/CTN

Prophy Brushes Junior RA- Nylon Metal

- Colour: mixed colour
- Case Size: 38*33*20cm
- Pack: 100 boxes/CTN

X ray barrier envelope

X-Ray barrier envelope- Top Opening

- Size: 33 mm x 44 mm
- Pack: 100 pcs/box

Saliva Ejector

Saliva Ejector

- material: alloy or braze
- Cap: removable or not
- Pack: 50 bags/ctn

Autoclavable Impression Trays

Autoclavable Impression Trays

- Colour: purple, white, yellow, green, blue
- Material: PC
- Pack: 100BAGS/CTN

Autoclavable metal Trays

Autoclavable metal Trays–Autoclavable

- Colour: blue
- Material: Metal
- Pack: 10 pcs/set

Disposable Fluoride Foam Trays

- SIZE: 193*65mm, 182*60mm, 165*55mm
Large: 50 PCS/BAG
Medium: PCS/BAG
- Colour: yellow, blue, green
- Material: PE

Pack of 50

Our proud partners

JOIN US IN SHAPING THE FUTURE OF HEALTHCARE

*At **Al Massaeed Group Medtech Co.**, we are more than just a company—we are a partner in progress. Whether you are a healthcare professional seeking innovative solutions or a potential collaborator looking to make an impact, we invite you to join us on this journey of excellence.*

Together, let's redefine healthcare standards and create a healthier future for all.
